

Had a Hard Day

Texas

I got a hot date
It's complicated
You know it's hard to care
I can't be here or everywhere

I hope there's magic
When you're around me
Each time I get too close
I lose the one I love the most

Evidently, Heaven never sent me to you
Evidently, Heaven never sent me to you

I gotta find a way
To make you say it's the
Right time, the right time
I gotta find a way
To make you say it's the
Right time, the right time

I try to speak to you
Not sure what I should do
It's tough when things go wrong
I've thought about this far too long

I've had a hard day
It's complicated
Each time I settle down
I lose the one I want around

Evidently, Heaven never sent me to you
Evidently, Heaven never sent me to you

I gotta find a way
To make you say it's the
Right time, the right time
I gotta find a way
To make you say it's the
Right time, the right time

I gotta find a way
To make you say it's the
Right time, the right time
I gotta find a way
To make you say it's the
Right time, the right time

I gotta find a way
To make you say it's the
Right time, the right time
I gotta find a way
To make you say it's the
Right time, the right time

(Right time, right time)
(Right time, right time) To make you say it's the
(Right time, right time)

(Right time, right time) To make you say it's the
(Right time, right time)
