

Hi

Texas

High, high, high  
We got high, high, high  
We got high, high, high  
(Texas, Wu-Tang)  
We got high  
(High, high, high, high)

Yeah, yo, yo  
Ayo the vision that I can reveal is so real  
Sail through, the boat is four mil  
Still real as Enzo Ferrari  
On a rich two hundred band Bulgari  
Pool party Spanish calamari  
Sippin' Cardi B backwards, that's Bacardi  
Spinning through Spanish ocean  
Pussy soaking slid through grease even met the Pope and  
Hoping no commotion, no provoking  
Both of our hearts get left unbroken  
True love embraced with a new hug  
Ghostface, baby face, lace with a new dove  
We stick together like new cubs  
Look fly together like blue doves  
We stay buggin' out like a few bugs  
Where my shit at?

I'm gonna take my time on this road  
I've gotta find a place that we call home  
I've gotta change your mind, yeah, before we get old

High, high, high  
We got high, high, high  
We got high, high, high  
We got high  
(High, high, high, high)

Yo listen, yo look, loo-loo-look  
Yesterday I sent you an emoji  
With two hearts, a kiss and a roadie  
How could I resist the bliss of your lips  
Or miss the chance to bless your hands and your wrists  
With black and blue diamonds  
We was climbing to the top of the world, girl  
We was finding out about each other We're street lovers  
Sometimes lose their way when they lay in deep cover  
Cuddle in a huddle, we would snuggle in a bubble  
With a duffel bag of cash, no worries and no struggles  
Ruffle up my feathers til my cards got shuffled  
Then my heart got befuddled  
And the only rebuttal was "can we try again", you and I again  
Cayman islands under the sky again  
You're in a white dress looking your very best

I'm gonna take my time on this road  
I've gotta find a place that we call home  
I've gotta change your mind, yeah, before we get old  
I'm gonna take my time on this road  
I've gotta find a place that we call home

I've gotta change your mind, yeah, before we get old

High, high, high  
We got high, high, high  
We got high, high, high  
(Up up in the sky)  
We got high  
(High, high, high, high)  
We got high, high, high  
We got high, high, high  
Yeah, we got high up in the sky  
We got high
