

I Need Time

Texas

Time
Is all I need
To find somebody
Someone just for me

Time
Is all I need
To find somebody
Someone just for me

In comes a darkness then falls the night
Send a heavenly creature to turn on my light

Time
Is on my side
When there's nobody
To play in my mind

Taking my time now to let myself go
You got myself steady and ready, I know

I find it so funny after so long
The way you look at me
Just don't understand
It still feels oh so wrong

Cause time
Is all I need
To find somebody
Someone just for me

Cause time
Is all I need
To find somebody
Someone just for me

In comes a darkness then falls the night
Send a heavenly creature to turn on my light

Not sentimental, don't wanna be friends
You know that was killing me, ran in deep end
Advance straight through your hands

Time,
I got time
Time,
Oh it's my time
