Where Do You Go

Texas

When we were much younger I knew that you'd never stay
Yea even when we made it you felt more out of touch each day
And baby, where'd you go?
Do you ever know?

Yea every night you tell me no one else could feel your pain
You'd wander in your own head, losing you again and again
But baby, where'd you go?
You don't have to be alone
I'm taking what is mine
I know it's hard sometimes

Now take your time
I'll be there always and again
Yea we'll be fine
And you can't let her show your face
And you feel like you're such a waste
And it's a hard day to come

Every time you told me you were gonna start again
It's just another number like trying to draw without a pen
Yea baby, where'd you go?
It's time for you to know
I know that you're in pain
I'm here for you, just say

Now take your time
I'll be there always and again
Yea we'll be fine
And you can't let her show your face
And you feel like you're such a waste
It's a hard day to come

But you know I still believe in you
I'm taking on a train
I don't know what I'll do
And still, you're running in my mind
I'd give up on the world
I'd choose you every time

So baby, where'd you go?
Yea, did you ever know?
I'm taking what is mine
i know is hard sometimes

When we were much younger I knew that you'd never stay
Yea even when we made it you felt more out of touch each day
And baby, where'd you go?
Do you ever know?

And baby, where'd you go?
Do you ever know?
