

Long Time

Teyana Taylor

How you gon' punish a punisher?
You out here stressing your blessings, boo
You know I bring out the best in you
Turn into fame while I'm sexing you
I did the crimes on the run with you
Taking the charge, I'm confessing too
When you ain't right, I go left with you
But now there's nothing else left to do

I kept you inspired
I lent you my fire
You let me get tired
And the truth is, I didn't end when it was over
Baby, it's been over a long time
Didn't end when it was over
Now the door is closed for closure

Shoulda been walked out this bitch a long time
Long time, long time, long time
Shoulda been walked out this bitch a long time
Long time, long time, long time
Shoulda been walked out this bitch a long time
Long time, long time, long time, long time, long time, long time

Baby, it's been over
Baby, it's been over
Baby, it's been over
Baby, it's been over

Shoulda been walked out this bitch a long time...

Shoulda been walked out this bitch a long time...
