

Started two more in the morning, two more in my house
Two more when I walk, yeah, I'm turnt now
Two more when I doubt, two more on the block
Two more in the club, til' I pass out

Started two more in the morning, two more in my house
Two more when I walk, yeah, I'm turnt now
Two more when I doubt, two more on the block
Two more in the club, til' I pass out

Rubies drip on my lip, rubies on my wrist
Gotta make a wish, I'm gonna cross you off my list
Out here in the mist, you'll have to pay me for a pic
What you wanna drink, I'm with the Drain Gang, make a wish
Know you wanna link, I don't know what you're gonna think
Never wanted this, but I do it because I'm sick
Gotta get the money, gotta go and get it quick
I'm in the spaceship, it's looking like a G6

We're running so fast, we're going too fast
This ain't competition and they wanna kiss my ass
Ask my bro, why you out here 'round the world chasing bands
World chasing bands, he 'round the world chasing bands
With young Thaiboy on the track cause you know I go so ham
You know I go so ham, yeah they know I go so ham
I got some homies from LA, all the way to Japan
Too much money in my hand, buy a load out them bands

SG, we got ice all over us
You freeze to death if you're getting touched
And we got some skeletons with us
Smoking out the windows when we're creeping up
Thaiboy told me he don't give a fuck
Post up in the clubs and I get two more of the drugs
If you want me find me in the dust
Two door on the Lexus, and I'm always on the run

Started two more in the morning, two more in my house
Two more when I walk, yeah, I'm turnt now
Two more when I doubt, two more on the block
Two more in the club, til' I pass out

Started two more in the morning, two more in my house
Two more when I walk, yeah, I'm turnt now
Two more when I doubt, two more on the block
Two more in the club, til' I pass out
