

(Never thought I could)
(Never thought I could)
Never thought I could love somebody
Never thought I could love someone like this
Never thought I could love somebody
Never thought I could love somebody
And I never really cared about money
Now all this Champagne tastes like glucose
(Never thought I could)
I don't want to know
I don't want to know
I don't want to...

Never thought I could love somebody
Never thought I could love someone like this
Never thought I would
Never thought I could
Never thought I would

You got me going crazy
You got me going crazy
Riding with my baby
A crazy little baby
I do anything for you baby
You really got me going crazy
Riding with my baby
Imma always here for you baby
Then i'm coming back for your kiss
Then i'm coming back for a kiss
You got me going crazy
You got me going crazy
Damn I miss you baby
I do anything for you baby
I got me going
