

Thaiboy

Back to life, back to reality, back to my city
In the end I had it already within me
Seven years a long time it took my everything
(Loesoe goin' crazy)
Knew that I was so lost I had to go on
In my mind was so dark, wanted to go home

Back there is my home in Sweden
Right here is my home in BK-K
Yeah, my heart is my home
Whenever I felt alone I kept going strong
Kept making them songs
I kept on going hard
Feel like it's back to life
Baby girl you be shining so bright
You be shining so bright, yeah
Thaiboy

I'll be your number one, girl you're my number one
This world it is all yours, baby girl let's have some fun
Take it step by step, your time, every moment a blessing
With you always by your side 'til eternal ending
I have love for you, it's never ending

Back to life, back to reality, back to my city
In the end I had it already within me
Seven years a long time it took my everything
Knew that I was so lost I had to go on
In my mind was so dark, wanted to go home

Loesoe goin' crazy
