

I Will Make U Bleed

Thaiboy Digital

I put you underneath
Open up my jeans
Smoking on disease
Cause it puts me in the trees
I'm so cold like I'm on a pair of skis
I unlock the hidden level, then I ate the keys
100 \$ tees
Ship them overseas
Touch me and you'll freeze
I'm outside your reach
I was almost broke, but I forced it to increase
You wanted it with me, now I will make you bleed

I will make you bleed
I will make you bleed
I will make you bleed
I will make you bleed
I will make you bleed
I will make you bleed
You wanted it with me, now I will make you bleed

I be smoking weed
I will make you bleed
I will make you hit your head
Show you how I feel
Smoking 'til I die
Smoke up in my eye
So high, touch the sky, made me cry
Gotta keep it clean
I will make you bleed
Fuck my enemies, tell them Thaiboy make you bleed
Stacks up in my jeans
I turn into a fiend
I be so high, my life is a dream
All the bitches scream
Rari two seats
Wanna hang with me girl
I will make you bleed
I will make you bleed
I will make you bleed
