

Love Potion

Thaiboy Digital

Ooh, oh, oh, ah
(Loesoe goin' crazy)

Thaiboy on the radio, what's happening?
Let me make you happy
Watch, stop, that's it
I'ma let you have it
In the name of life, you can reach, you can grab it
If you teach, I will practice
Best believe, I believe, I believe in the magic
All you need is right there, you have it
And you have it, and you have it
You got to think about the balance, imagine
You want less of the drama, more classic
Started to enjoy the little things, it's fantastic
I want to be a 007 type romantic

I wandered down into the ocean, making love potions
Wrote a new song, put the world back in motion
Golden wind flowing, that match my emotion
You already know, GTB, we the chosen
I'm feeling like I'm the one
Here to fix what is broken
I'm walking off in slow-motion
Thaiboy Goon, the explosion

One for all
All for one
You and I, we, we're both one
You and I, we, we're both one
You and I, we, we're both one
One, one, ah
