

Still In Search Of Sunshine

Thaiboy Digital

Still in search of sunshine
I'm still on the front line
Gotta get it one time
Double-crossing both sides
I still got my closed eyes
Medicine with crushed ice
AvP, watch out, it's cold out
Sometimes I can't keep the ghosts out

I gotta disinfect, I'm gone in a sec
You hit my phone about some money we can reconnect
I'm with the Drain Gang bitch, gonna drain your neck
You must've thought that I was playing, but who told you that
I take over the city off a percocet
I took her heart, she was your girl, it wasn't working man
What is the fucking meaning, someone tell me that
I'm blade running in Miami with 200 racks
I make it so you meet me, there's a price for that
I'm out in public with my razor and my Jason mask
Got 20 floors beneath me but I'm with the rats
I'm burning through the money cause I know I'll get it back

Margiela veil, opiates for sale
Drugs under my nails, get my money through the mail
I wanna know where do you go
Still in search of sunshine, going to the coast

Still in search of sunshine
I'm still on the front line
Gotta get it one time
Double-crossing both sides
I still got my closed eyes
Medicine with crushed ice
AvP, watch out it's cold out
Sometimes I can't keep the ghosts out

Hey, Thaiboy tell 'em what it do
You think you flexing, boy who, boy who
Rich as Bill Gates, came outta Shield Gang
Thaiboy Goon pull up from the east like a real champ
AvP, shawty you know we don't like to dance
Gotta story in this foreign land
Nobody understand, they can't fuck with that
Shield Gang, you can fuck with that
Had a heart attack but I came back
She can't do me like that while I'm smoking on this pack
Woke up in the bank and I'm higher than my rank
Flexing like a tank, GTB, Shield Gang
