

The Kingdom

Thaiboy Digital

(Whatever)

Man, you already know what it is, man (Whatever)
Shouts outs my brother Bladee man
(If Gabe ain't mixed it, it ain't mixed right)
You do this a year, we do this shit for life, man
(Whatever)

Got to kill the king to take the kingdom
I've been winning with my women
In a downward spiral, I was spinning
I was sinning, sinning, sinning
SG, take it back to the beginning
We gon' act like we some children
Destiny hold me back, but I'm driven (I'm just moving to the rhythm)
To you it looks major but it's little
DG, we gon' step down on the devil
Coming down like Michael from the heaven
Coming down like Thor, I got the hammer
Steppin' out like Jesus in some sandals
Steppin' over pieces from the shatter
Of reality imagined, all the chances that never happen
All the struggles, all the battles
All the things that never mattered
All the questions left unanswered
It's just steps inside a ladder
(Man, it is what it really is, man)
Always climbing towards the castle

Feeling resurrected, man, I can't go back to hell (back to hell)
I was fucking up the balance, so the darkness tipped the scale
Now I'm going so damn hard, I'm making sure they're living well (Yes, sir)
My life is a movie, tell my daughter fairytales (Yeah)
I can only be real, haters broke and be ill
Now I'm spinning, windmill, I don't take no chill pill (Chill pill)
Rainbowstar how I feel, SG we the real deal (Real deal)
I be making more still, I just trust the Lord's will (Yeah)
Man, you know I do this for my partners (Ayy, Drain Gang)
GTBSG, baby, this for life, man, this forever (Thaiboy)
We did this shit together, man that's what really matters (SG)
Anthem, off the king, being on, only way up
We only got like one life, then we disappear (Yeah)
Going up on high speed, throw it in the air
I just make it all clear, fuck living in fear
Hit you with the long spear, Thaiboy in the frontier

(Whatever)

Got to kill the king to take the kingdom
I've been winning with my women
G-G-Got to kill the king to take the kingdom (I haven't forgotten)
I've been winning with my women
Got to, got to, got to kill the king to take the kingdom
I've been winning with my women
Got to kill the king to take the kingdom
I've been winning with my women In a downward spiral, I was spinning
I was sinning, sinning, sinning
