

Winter

Thaiboy Digital

Someday I will die, but my name will survive
You stay true, you never die, Thaiboy Goon will never die
Always tryna reach higher than I did before
But nigga I just want more, I just want more
I'ma take over the whole world, take over everything
Take over jealousy, attain to something else

Everything has been said
Remember when my eyes were red
I've been gone, been dead
I hear the streets calling me, voices in my head
When will I ascend
Didn't see me then, now they see the worst of me instead
Sometimes I am dead
I hear the night calling me, winter in my head

Everything has been said
I hear the night calling me, winter in my head
