

Hey, It's Me

Thalía

Hey, it's me
I hope you'd still remember
Your old friend and then
We can talk and laugh again
Hey, it's me
I never thought I'd see you
Once again and I just can't
Believe you're right here with me
Now, lookin'
Starin' and talkin'
Telling me things that you've
Done all these years

Hey, it's me
The one who'll always care for you
Oh, yes, it's me
The one who'll always love you
I just hope you still remember
And I wish it crossed your mind
All the memories that we have left behind

Hey, it's me
Now that you're back in my arms
You'll see, I'll always keep you
Here in my heart

Hey, it's me
I never thought I'd feel this love again
And I just can't
Believe you're right here with me
Now lookin', lovin' and feelin'
Sharing this love for the rest of our lives
