Trouble Was For

Thao & The Get Down Stay Down

Everybody please put your clothes back on
We must see what the trouble was for
And everybody needs sugar from your mouth
But I'll take none for me
I was late, you've run out
But I'll take none for me
I was late, you've run out

Come back, come back, 'cause I got smart
In the time you took to get this far
Come back, come back, 'cause I got smart
In the time you took to get this far

A fight so old, it's body complains
I come back cause the punches always hit the same
Not for the world would we fall in the way
Of a fight so old

Come back, come back, 'cause I got smart
In the time you took to get this far
Come back, come back, 'cause I got smart
In the time you took to get this far

A fight so old, it's body complains
I come back cause the punches always hit the same
Not for the world would we fall in the way
Of a fight so old
