

## About You

### That Handsome Devil

This place is a nightmare, they take delight in what's not right here  
We isolate and fight and everything has got its price here

Spaceships, arrayments, inflation, surveillance  
Contagious, complacent, racist arrangements  
Extremist, elitist, convenience, bereavement  
Allegiance, deviance, demons, defeatists  
The latest, the greatest, the shameless, the famous  
The sadists, degrading, dramas, deranged

But I don't care about anything  
I don't care about anything  
I don't care about anything but you  
Everything that's going on  
Everything we're going through  
And I don't care about anything but you

We are not in control  
We are blossomed and old  
We are watching the show, we are lost and alone  
We are rotting in parts of our soul and I wanna go home

We are not in control  
We are dropped in a box, we are tossed in a hole  
We are taking precautions, our laptops and our phones  
The mailboxes are full

We are not in control  
We are gassing it up, we are watching it go  
The toxins are processed and sold  
There is garbage in parts of our hearts and our souls

We are not in control  
And it's haunting us all

But I don't care about anything  
I don't care about anything  
I don't care about anything but you  
Everything that's going on  
Everything we're going through  
And I don't care about anything but you

But I don't care about anything  
I don't care about anything  
I don't care about anything but you  
Everything that's going on  
Everything we're going through  
And I don't care about anything but you
