

# Cleanse My Algorithm

That Handsome Devil

I'm scared of the internet  
I'm scared of these idiots  
I'm scared of indifference  
I'm scared of the middlemen of the privilege making livings off innocents

Are you scared just a little bit?  
This is really it

I need to be forgiven  
And cleanse my algorithm

If I start crying now  
I may never stop  
If I start crying now  
I may never stop  
Call the cops, haul me off  
I'm exhausted by the thought  
That doesn't stop

Our nervous systems weren't supposed  
To stretch around the earth  
And it hurts  
And it hurts  
Our nervous systems weren't supposed  
To stretch around the earth  
And it hurts  
And it hurts

I need to be forgiven  
Please cleanse my algorithm

You need a new beginning  
Lord, cleanse my algorithm

If I start crying now  
I may never stop  
If I start crying now  
I may never stop  
Call the cops, haul me off  
I'm exhausted by the thought  
That doesn't stop

Are you scared just a little bit? (Are you scared)  
This is really it  
Are you scared just a little bit? (Are you scared)  
This is really it (This is really it)

It was easier for me before  
Believing in the meaning of  
It was easier for me before  
Believing in the meaning of  
It was easier for me before  
Believing in the meaning of

I need to be forgiven  
And cleanse my algorithm
