

## Don't Go

### That Handsome Devil

Charming at an arm's length baby, don't confuse the devil for the smile  
You can stand there watching, red in the glow below the neon signs  
And we'll keep on talking cause we're both ain't gotten a ride  
Stumble side to side, club to club, and to the bathroom on the floor  
Shuffle through my pockets looking for some change to put into the phone

Don't go, man, for the love, just sit around  
Let me repeat myself  
Don't go man for the love, just sit around  
Let me repeat myself  
Don't go man for the love, just sit around  
Let me repeat myself  
But baby how you getting home?

Charming at an arm's length honey, I ain't seen you in here for a while  
And we'll keep on walking cause life ain't well we talk and get high  
Oh! a couple drinks ain't hurt us, so we go inside and have a couple more  
Going with the current cause you're caught up in the spin of the world

Don't go man, for the door, just sit around  
Let me repeat myself  
Don't go man, for the door, just set your mind  
Let me repeat myself  
Don't go man, for the low love  
But baby how you getting home?

And, when the lights get bright and the music stops  
Everything is wearing off  
Don't talk, don't talk

Don't go man, don't go  
Just set your mind  
Let me repeat myself  
Don't go man, for the low love  
But babay, how you getting home?

You don't have to go  
Go away and let me love  
You don't have to go  
I just need someone to love!

Don't go man, don't go  
Let me repeat myself  
You don't have to go, for the low love
