

## Eristocrats (Discordia pt. II)

That Handsome Devil

Let's meet Jeffery (Jeffery)  
Shoots dope lefty  
Yellin', "You can't catch me"  
Drove way out to the sea in a Jetski

Oh, my Gertrude, I don't wanna hurt you  
I just wanna live like a soda commercial  
Found her on the shore in her brand new church shoes  
Covered in burns, face all purple

The world has a sickness (sickness)  
It's hidden in the gimmicks  
Beamed through the TVs and the satellite dishes  
Teach a man to fish and he'll catch two fishes  
Start his own business, tax-free - it's religious

Bats in the belfry (woo-hah)  
Rotten on the vine (ha-ha, ha, ha)  
Can't keep my eyes closed (woo-hah)  
Sunny all the time (ha-ha)  
Put your hands where I can see 'em, boy  
Keep 'em up high  
This place (place) has gone (gone) crazy

Gooley, gooley gumdrops (gumdrops), a whole bunch of gunshots  
Two through the lunchbox, one made his lungs pop  
Running through the E.R., why won't the blood clot?  
Crying to some cop, looking through the mugshots

Apparently rational, something isn't natural  
A couple Jack and Cokes got me weavin' through the traffic cones  
Be cool, Daddy-o, laughing at the last to know  
Sometimes to free a mind, you've got to crack a skull (skull)

Bats in the belfry (woo-hah)  
Rotten on the vine (ha-ha, ha, ha)  
Can't keep my eyes closed (woo-hah)  
Sunny all the time (ha-ha)  
Put your hands where I can see 'em, boy  
Keep 'em up high  
This place (place) has gone (gone) crazy

The pitter and patter of climbing the ladder  
Grow closer and closer and faster and faster  
The fakes and the actors, the preachers and pastors  
Impending disaster grows faster and faster (faster)

The chitter, the chatter, the crying, the laughter  
Grow slower and slower and sadder and sadder  
The fakes and the actors, impending disaster  
Goes faster and faster and faster and faster (faster)

The pitter and patter goes faster and faster  
The chit and the chatter goes faster and faster  
Climbing the ladder, faster and faster  
Impending disaster goes faster
