

## Savages

### That Handsome Devil

It's funny there I was  
There I was just ordering a frappuccino with some pumpkin spice  
Scrolling through the pictures  
Scrolling through the pictures of some people that I didn't really like

At war with every species, from dinosaur to seaweed  
Peace love high-fives free wifi  
At war with every species, Veni vidi vici  
Peace love tie-dye free wifi

I was just standing in the store  
I had forgotten what I'd started looking for

There must be something, there really must be something  
I can buy to make this feeling go away  
There must be some way, there really must be some way  
To get high and make this feeling go away

Somebody sell me something please somebody sell me something  
I am numb and I feel nothing from the junk my heart is pumping  
Somebody tell me something please somebody tell me something  
That is comfortable and loving I am numb and I feel nothing

Savages  
At war with ratios and averages  
Government establishments coloring and additives

I don't want another update, fuck's sake, drugs to go to sleep  
Drugs to keep me up late

I don't want another update, fuck's sake, drugs to go to sleep  
Drugs to keep me up late

There must be something there really must be something I can buy to make this feeling go away

I don't understand. We were holding hands  
And stretching in our yoga pants  
Recycling our soda cans  
Voting, giving hope a chance

I don't understand  
We were holding hands... recycling our soda cans  
Voting, giving hope a chance  
I don't understand
