

## Conscience (Skit)

That Mexican OT

Ayy, OT, it's me, man  
It's your conscience  
Yeah, I know you ain't heard from me in a bit, but I just wanted to tell you  
These drugs you be doing  
Man, they go hard, Cuz  
I fuckin' love these drugs, you got me addicted  
I--, I'm even surprised how you can hang with some of these  
I thought we was out of there a couple times, but nah, you stood your ground  
I know you ain't heard from me in a long time, but--  
It's just 'cause I've been high off my ass from the--, from that loud you be smokin'  
I don't even have eyelids and you got my eyes low as hell  
But I just wanted to tell you a few things  
You know? Just from--, from me, your conscience, to you just--  
Just wanted to say that you're doing good, man, doing the right things  
You're making your fans proud  
They resonate with you  
People say you gotta slow down and enjoy what's real  
You know, to be human and humble?  
Fuck that, that's broke people shit  
Don't listen to them, listen to me  
Keep drinkin' a lot, smoke a lot  
Eat a bunch of mushrooms  
Do your thing  
That slowin' down shit, that--, that's for people in their forty's  
You're gonna live forever  
I swear to God you will, trust me  
I know what I'm talking 'bout  
But anyway--
