That Mexican OT

I'm gonna slide
I'm gonna ride
And if it come to my family
Your money, somebody gonna die
'M going try
Not to cry
Well, I'm gonna pour it up in this cup
Cause I got so much pain inside
You can see it in my eyes
I done seen some things
Even when the sun, ya'll still feel the rain
Overdosing on pills
I still feel the same
I still feel the pain

I'm gonna put some with some yappas
And chopper and now I'm gonna act up
I'm gonna bop him in his head
I'm gonna have him call for back up
He say he got four people pushing up
I'm gonna crack him
Do them boys like mosquitoes when I'm fishing
Imma whack em

Right now, God tryna to bless me
I know the devil going test me
The devil think he could beat me
I'm about to teach a lesson
I'm gonna slide on em
I'm gonna ride on em
Put that nine on em
Fucking with my little baby brother
Bitch I'm gonna die for em

Yeah the only thing I got left with my mother since she died
If he say he need his big brother, best believe Imma slide
Imma steppa now mama
Check him crashing out
We finna collide
Put them drums on them nick cannons then Fah Fah Fah Fah
Like a dumb kid cheating in class
I'm looking for some answers
So I push up to that ER one deep because I got cancer
Put that rocket out my pocket cock
Clamming em
Run em down, gun em down
Bitch I take away his stamina

I'm gonna slide
I'm gonna ride
And if it come to my family
My money, somebody gonna die
I'm going try
Not to cry
Well, I'm gonna pour it up in this cup
Cause I got so much pain inside
You can see it in my eyes

I done seen some things
Even when the sun, y'all still feel the rain
Overdosing on pills
I still feel the same
I still feel the pain

I'm gonna slide
I'm gonna ride
And if it come to my family
My money, somebody gonna die
I'm going try
Not to cry
Well, I'm gonna pour it up in this cup
Cause I got so much pain inside
You can see it in my eyes
I done seen some things
Even when the sun, y'all still feel the rain
Overdosing on pills
I still feel the same
I still feel the pain
