

# If You're Too Shy (Let Me Know)

The 1975

I see her online, all the time  
I'm trying not to stare down there  
While she talks about her tough time  
Girl of your dreams, you know what I mean  
There's something 'bout her stare that makes you nervous  
And you say things that you don't mean

Well, I found my hotel, I called up the twins  
It's seven in the morning, so they won't let me in  
I need to get back, I've gotta see the girl on the screen  
(And then I phoned her and she said)

"Maybe I would like you better if you took off your clothes  
I'm not playing with you, baby, I think that you should give it a go"  
She said, "Maybe I would like you better if you took off your clothes  
I wanna see and stop thinking, if you're too shy then let me-  
Too shy then let me know"

I've been wearing nothing every time I call you  
And I'm starting to feel weird about it  
Sometimes it's better if you think about it  
This time, I think I'm gonna drink through it  
But I see her online, and I don't think that I should be calling  
All the time, I just wanted a happy ending  
And I'm pretending I don't care 'bout her stare  
While she's giving me a tough time

Well, I found a motel, it looked like the bins  
I think there'd been a murder, so we couldn't get in  
I need to get back, I gotta see the girl on the screen

She said, "Maybe I would like you better if you took off your clothes  
I'm not playing with you, baby, I think that you should give it a go"  
She said, "Maybe I would like you better if you took off your clothes  
I wanna see and stop thinking, if you're too shy then let me-  
Too shy then let me know (Too shy then let me)  
But if you're too shy then let me know (Too shy then let me)  
If you're too shy then let me go" (Oh, yeah)

I see her online  
All the time

She said, "Maybe I would like you better if you took off your clothes  
I'm not playing with you, baby, I think that you should give it a go"  
She said, "Maybe I would like you better if you took off your clothes  
I wanna see and stop thinking, if you're too shy then let me-  
Too shy then let me know"
