

## Me & You Together Song

The 1975

I can't remember when we met  
Because she didn't have a top on (Top on)  
I improvised a little bit  
She said my references were 'spot on' (Spot on)

"Can I take you for a drink?"  
She said, "Oh god, I'll have to think  
Because we're mates, it doesn't feel right?!" (Feel right)  
And I said, "It's cool," and, "I was messin'," but it's true  
Yeah, it's you  
You're the one who makes me feel right

I've been in love with her for ages  
And I can't seem to get it right  
I fell in love with her in stages, my whole life

I had a dream where we had kids  
You would cook, I'd do the nappies (Nappies)  
We went to Winter Wonderland  
And it was shit but we were happy (Happy)

I'm sorry that I'm kinda queer  
It's not as weird as it appears  
It's 'cause my body doesn't stop me (Stop me)

Oh, it's OK, lots of people think I'm gay  
But we're friends, so it's cool, why would it not be? (Not be)

I've been in love with her for ages  
And I can't seem to get it right  
I've been in love with her in stages, my whole life

There's been no way for me to say that I've felt a certain way in stages, oh  
I think our story needs more pages cos  
I've been in love with her for ages (Ages)  
And ages  
Been in love with her for ages (For ages)  
And ages  
I've been in love with her for ages  
Ages and ages  
I've been in love with her for ages  
For ages, oh, ages, yeah  
I've been in love with you for ages  
For ages and ages, yeah  
I've been in love with you for ages  
For ages  
I've been in love with you for ages
