Milk

Straight lines they unwind you She does a little thing with her eye that says, "We're off soon "

She said the bleeding's incidental 'cause she's so cool She said I'm no fun if I've only a bottle of wine

And now she's doing it all the time Yeah, she's doing it all the time

Slow down
Yeah, I want you
She does a little bit on the sky
That shows what she's up to
She started talking about missing him she was glistening
It won't mend your heart if it's only a couple of lines

But now she's doing it all the time Yeah, she's doing it all the time
