

# TooTimeTooTimeTooTime

The 1975

You wet my eyes  
But I don't mind it  
I tell you lies  
But it's only sometimes  
(You pick a fight)  
And I'll define it  
(I swear that I, I swear that I)

I only called her one time  
Maybe it was two times?  
Don't think it was three times  
Can't be more than four times  
Think we need to rewind  
You text that boy sometimes!  
Must be more than three times!  
Didn't mean to two-time ya, two-time ya

She said that I, I should have liked it  
I told her "I only use it sometimes"  
Except when I, I need reminding  
I'm petrified  
(I'm petrified)

But I only called her one time  
Maybe it was two times?  
Don't think it was three times  
Didn't mean to two-time ya, two-time ya

You wet my eyes  
But I don't mind it  
I tell you lies  
But it's only sometimes  
(You pick a fight)  
And I'll define it  
(I swear that I, I swear that I)

I only called her one time  
Maybe it was two times?  
Don't think it was three times  
Can't be more than four times  
Think we need to rewind  
You text that boy sometimes!  
Must be more than three times!  
Didn't mean to two-time ya, two-time ya

(One time yeah, one time yeah, one time yeah  
Two time ya, one, I only called her one time)  
Ooh, two-time ya, two-time ya  
(Oh one, one time, oh, two time, three time yeah  
One, one time, two time, three time yeah)

I only called her one time  
Maybe it was two times?  
Don't think it was three times  
Can't be more than four times  
Think we need to rewind  
You text that boy sometimes!

Must be more than three times!

Didn't mean to two-time ya, two-time ya

(One time, oh, one time, three time, four time

Three time, four time, two time, three time)

Too time, too time yeah

(One time, oh, one time, three time, four time

Three time, four time, two time, three time)
