

1984

The 4-Skins

Britains in trouble, countrys bled dry
handicapped and elderly have all gotta die
no one fights the system, fight with each other
the combine is laughing, scared of big brother

What are we gonna get
What are we gonna get
What are we gonna get
in 1984

Rats leave the sinking ship, theyve got their money made
third world countries, sending us aid
people queue up just to get their ration
not the birth, but the death of a nation

What are we gonna get
What are we gonna get
What are we gonna get
in 1984

Will there be some heroes, into 85
when the bomb is dropped, and how do you stay alive
Orwell said it all, he looked the future in the face
Giant test tube babies, build a brand new race

What are we gonna get
What are we gonna get
What are we gonna get
in 1984
