

## Chance

The 411

When you see me in the club with another guy  
Remember it was you who said goodbye  
You expected me to sit around and wait for you  
I'm telling you boy that you're not that fly

See you're the one who told me a pack of lies  
It was obvious from the guilty look in your eyes  
But really boy it comes as no surprise  
That you were playing me  
Now you thought it was enough to spend your money on me  
When i really wanna spend time in your company  
I tried so many times to make you see  
That you can't buy my love

When you see me in the club with another guy  
Remember it was you who said goodbye  
You expected me to sit around and wait for you  
I'm telling you boy that you're not that fly  
Now you're watching me on the dancefloor  
Wishing you and I could've been more  
You had your chance with me

Now I'm free to do whatever the hell i like  
I can call my girls and go out and party all night  
My soul has been uplifted and it feels so right  
Now you're not in my heart

When you see me in the club with another guy  
Remember it was you who said goodbye  
You expected me to sit around and wait for you  
I'm telling you boy that you're not that fly  
Now you're watching me on the dancefloor  
Wishing you and I could've been more  
You had your chance with me

Uh, come on, it ain't your birthday, it ain't your birthday  
Uh, come on, it ain't your birthday, it ain't your birthday  
Don't think i don't know boy  
My cash, it brought you joy  
Most things you own, don't mean to moan but it's not OK, boy  
Don't think i don't know boy  
My cash, it brought you joy  
You had your chance with me
