

All Men Must

The 502s

Oh Savannah won't you take me to your home
Where the king's land and the gold is in the street
Dany girl, flesh of this world
The fire from your belly will it breathe

Oh I swear it
By the old and the new
When the day is done
And winter's end's begun
Darling I'll be coming home with you

Johnny boy, watched by the wall
The other boys knifed you to your knees
So hold the door, but don't wait for me
I'll see you on the other side in peace

Oh I swear it
By the old and the new
When the day is done
And winter's end's begun
Darling I'll be coming home with you

So west I go back to my home
A needle in my hand to make men pay
Always watching, and I know his name
And all I have to say is not today

Oh I swear it
By the old and the new
When the day is done
And winter's end's begun
Darling I'll be coming home with you

Do you feel it coming in again?
Will you tell me how to handle it?
Do you know me?
Can you show me how to fix this heart that is lonely?
Do you know me?
Can you show me how to fix this heart that is lonely?
Can you show me the way back home?
Can you give me the ones I know?
Can you show me the way back home?
Can you give me the ones I know?
