

Genevieve (The Whistle Song)

The 502s

Gene went wild in 17
Got a tattoo down in Joshua Tree
Oh yeah, hell yeah, my past still scares me
But I smile when I think of what I can be
Lie in bed 'till 1pm
And dream of the life that I meant to live
Hell yeah, my past still scares me
But I'm learning it doesn't define me

Genevieve, I can hear your heart ache
Better days aren't far away
Nothing ever lasts
Good or bad, it passes
Tomorrow's a lifetime of chances

Genevieve, I can hear your heart ache
Better days aren't far away
Nothing ever lasts
Good or bad, it passes
Tomorrow's a lifetime of chances

Take each day and the hope it brings
Give yourself back your inner peace
Oh yeah, hell yeah, follow your heart
Then you'll learn just who you are

Genevieve, I can hear your heart ache
Better days aren't far away
Nothing ever lasts
Good or bad, it passes
Tomorrow's a lifetime of chances

When you're walking through your life with a broken heart
Just remember, there's a reason you're the way you are
Nothing ever lasts
Good or bad, it passes
Tomorrow's a lifetime of chances
