

# Hold My Love

The 502s

Scream out, breath in those mounting winds  
Just biting at your skin  
Followed by frolics in the field  
With an old forgotten friend  
Hold my love dear  
Say where you're coming from  
Hold my love dear  
Before the deed is done

You'll break in just wrapped around your sin  
And hold me gentle, and hold me in  
And I'll break down and I'll give in  
And hold you gentle, and hold you in  
And I'll see you and you'll see me  
Burning slowly in the midnight dream  
Let me know when you're coming around here  
For real

Reach out for memories, just echoes  
Of an old forgotten dream  
Chase out the shadows and demons  
Just trailing at your feet  
Hold my love dear  
You'll find no peace here  
Hold my love dea  
Oh not this year

You'll break in just wrapped around your sin  
And hold me gentle, and hold me in  
And I'll break down and I'll give in  
And hold you gentle, and hold you in  
And I'll see you and you'll see me  
Burning slowly in the midnight dream  
Let me know when you're coming around here  
For real

Only you know where I've been  
Only you've seen what I've seen  
Only you know where I've been  
And only you've seen what I've seen

You'll break in just wrapped around your sin  
And hold me gentle, and hold me in  
And I'll break down and I'll give in  
And hold you gentle, and hold you in  
And I'll see you and you'll see me  
Burning slowly in the midnight dream  
Let me know when you're coming around here for real  
Let me know when you're coming around here  
For real
