

# Summer Wind

The 502s

There's a summer wind blowing  
Yeah it's pure serotonin  
Got a Lumineers' beat flowing through my heart  
There ain't a better feeling  
Than being with you singing  
The songs that we know by heart

Karaoke on your birthday  
Thought that you were gonna kill me  
Signed you up to serenade us at the bar  
Honey there ain't a better feeling  
Than being with you singing  
The songs that we know by heart

Oh  
I love it all  
You turn it up  
And I start singing along  
Oh  
I love it all

There's a summer wind blowing  
Yeah it's pure serotonin  
Got a Lumineers beat flowing through my heart  
Honey there ain't a better feeling  
Than being with you singing  
The songs that we know by heart

Oh  
I love it all  
You turn it up  
And I start singing along  
Oh  
I love it all

Oh  
I love it all  
You turn it up  
And I start singing along  
Oh  
I love it all

We were sitting in the kitchen  
Daydreaming, reminiscing  
Didn't care who was listening at all  
When life takes us separate ways  
One thing remains  
The songs that we know by heart  
If life takes us separate ways  
My love won't change  
You'll always be in my heart

Oh  
I love it all  
You turn it up  
And I start singing along  
Oh

I love it all

Oh

I love it all

You turn it up

And I start singing along

Oh

I love it all

The songs that we know by heart
