

## Waves

The 502s

When you think of love, do you think of me?  
Do you think of sunshine and memories?  
Do you think of driving to the beach in my jeep playing Fast Car loud?

Sun on your body  
Sun on your face  
Sun in my heart from the way you make me smile, I'm  
Soaking up the good times now

Got me feeling like a love struck puppy  
Like a kid with a two scoop sundae  
Like a dreamer who dreamed enough to be where they wanted to be  
Everybody's always looking for proof  
But me? I just jumped because I knew  
And I landed in love with you, with you

When you think of love, do you think of me?  
Do you think of sunshine and memories?  
Do you think of driving to the beach in my jeep playing Fast Car loud?

Sun on your body  
Sun on your face  
Sun in my heart from the way you make me smile, I'm  
Soaking up the good times now

When you think of love, do you think of me?  
Do you think of sunshine and memories?  
Do you think of driving to the beach in my jeep playing Fast Car loud?

Sun on your body  
Sun on your face  
Sun in my heart from the way you make me smile, I'm  
Soaking up the good times now
