

Open Your Window

The 5th Dimension

Open your window and take a deep sigh
Think about letting the rest of the world go fly
(A kite) Livin' is easy
As easy as pie
And holding your hand is such a natural high
You sent flowers
We spent hours

We spent hours
You sent flowers
Well we could be happy, alone and obtained
Just think of the money we'd save on rent cars
Livin' is easy
As easy as pie
And holding your hand is such a natural high
