

# What Do I Need To Be Me

The 5th Dimension

I look at all the people  
As they pass me by and wonder  
If they really know what life is all about  
They live in a lonely world preoccupied  
They only look at me to speak of troubled times  
What do I need to be me  
If I walk alone will I find my peace of mind?

And every time I see a rainbow hanging in the sky  
I feel like walking straight up to the sun  
May it street people say that's kind I've done  
Do I have to prove it can't be done?  
What do I need to be me  
If I walk alone will I find my peace of mind?

What do I need to be me  
To walk proud and feel free?  
What do I need to be me  
Should I laugh and blow away reality?

Oh, I'd like to sit up on my high seal  
And feel the breeze  
And watch the daytime turn it quietly tonight  
Searching truth the questions of my life  
Some day are the answers could be mine

What do I need to be me  
If I walk alone will I find my peace of mind?  
What do I need to be me  
If I walk alone will I find my peace of mind?
