## The 69 Eyes

Who told you about a man without fear  
Who told you about a god who does not care  
Who told you about a pain that does not hurt  
Who told you about a love that turns to dirt

Devils  
You've got a face-to-face with your  
Devils  
You've got a race to race with your  
Devils  
You've got to find a place among your  
Devils  
You cannot replace your  
Devils  
Devils

Who told you about cause and effect  
Who told you about a heart that can forget  
Who told you about fortune and fame  
Who told you that the evil has got no name

Devils  
You've got a face-to-face with your  
Devils  
You've got a race to race with your  
Devils  
You've got to find a place among your  
Devils  
You cannot replace your  
Devils  
You can't deny  
Devils  
They'll get you in the night
