## **Gothic Girl**

You can see her Whenever it rains From Rome to New Orleans Dancing on the graves Burden by the heart She loves her sunglasses after dark And every single day her little life falls apart

She's out to look so macabre and alone She's close to hook on her dying

Just like a gothic girl Lost in the darken world My lil' gothic girl Darkerside jewel are your razor cuts for real - baby

You can see She's on her road to ruin Stigmata from crucifixion On her pale white skin Tribal pagan art She loves her tattooed Egyptian mark And every single day her love will tear us apart

She's out to look so macabre and alone She's close to hook on her dying

Just like a gothic girl Lost in the darken world My lil' gothic girl Always so dramatic, Christ, I want you, gothic girl Lost in the darken world My lil' gothic girl Darkerside jewel are your razor cuts for real - baby The 69 Eyes
