## I Love the Darkness in You

Every time I see you there In the pale moonlight Dancing there all alone With a grave in your mind She's in parties with the flashlights She's got cemetery eyes I love the darkness in you So dirty So blue Every time I meet you there In the silvery light Dancing like all is gone But the Hell in your mind She's in parties with the flashlights She's got cemetery eyes I love the darkness in you So dirty So blue Darkness in you So fuckin' dirty And blue You buried me so deep I couldn't never believe

The 69 Eyes
