

Always Stay (Far Away)

The 88

Look baby look
Tell me what you took
Throw down your sign
Show me you're mine
You and I are bound well, well

Kiss when you're cold
Tell me what you know
Dreams in the fog
Roll there and stop
Take another hit and go

Always stay
Always stay
Far away

Say while you can
Did you see that man
Shame in his eye
Called for the light
Took a while to love his mind

Always stay
Always stay
Always stay
Always stay
Far away

Well I've been away
Seems like forty days
Broke down in two
What can I do
Get someone to take my place

Always stay
Always stay
Always stay
Always stay

Always stay
Always stay
