

You got emotion  
And a sick sad feeling  
All the way  
And in disguise  
Like heaven in his eyes  
You can't look away  
I want to know  
If it was really that important  
Can you say  
I'm gonna miss him

Now the moans  
Rip through your ears  
Sound nothing like  
Dreams

You ought to know it  
It never shows in  
Dreams  
Under the moonlight  
You didn't feel like  
Dreams

I've got a feeling  
This is really gonna work  
I can tell  
Cause when I looked  
I saw that you were shook  
By that awful yell

Now the moans  
Rip through your ears  
Sound nothing like  
Dreams

You ought to know it  
It doesn't show in  
Dreams  
Under the moonlight  
It did not feel like  
Dreams  
You indicated  
How much you hated  
Dreams
