I Got Lucky

The 88

Thank God it's over
the end never came
you showed me I
wouldn't be the same

And I was calling
just to feed your feeling
but swore that I
knew just what I needed

I got lucky
you know why
I got lucky
and I didn't try

With love around me,
I reached out for a hand
it hadn't come,
I would wait for it

Let's roll on empty
it's my ride to feeling
a paradise,
I knew I could steal it

I got lucky
you know why
I got lucky
and I didn't try
and it's been easy
do you know how
that I got lucky
for a while?

I got lucky
you know why
I got lucky
and I didn't try

Thank God it's over
the end never came
you should me I
wouldn't be the same

Your greatest portrait,
she's staring at me
with lovers eyes
Daddy, oh she's free

And I got lucky
and you know why
and I got lucky
and you know why...
