The Abyssinians

There Is No End

There is no end lyrics Yes, my friend This is not the end You've got life to live, my friend And not life to give Stop blaming yourself And find someone else

I'm not the only fool Stop breaking the rule Things you did to me Puts you in misery

Stop going around, blaming yourself For the things done by someone else Do the right things, speak the truth And your days will be much longer

Tomorrow is another day, day

Tomorrow is another day Tomorrow is another day

I'm not the only fool Stop breaking the rule Things you did to me Puts you in misery

Stop going around, blaming yourself For the things done by someone else Do the right things, speak the truth And your days will be much longer

Tomorrow is another day, day Tomorrow is another day So don't you go away and stay Tomorrow is another day
