

Homesick

The Academic

Looks like you're on your own again
How could it be?
You turned a love into a friend
To find what we need
It doesn't stop me having dreams
And checking my phone
You have to swim the sea to learn
How to be alone

We had it, we lost it
You found me in the bathroom
I was crying, I was homesick
You had me at 'Hello' dear
It's just the way your life is at the moment
It's just the cards that you've been dealt

A lonely heart turns to a stone
Sheltering me
There's only so much you can grow
When you're waiting for spring
Right now the key has jammed the lock
Not a glimmer of hope
If times a healer watch the clock
Well it's painfully slow

We had it, we lost it
You found me in the bathroom
I was crying, I was homesick
You had me at 'Hello' dear
It's just the way your life is at the moment
It's just the cards that you've been dealt

I'm waking up
I'm glad to see you're laughing
I'm waking up
I'm glad to see you
Now I know

We had it, we lost it
You found me in the bathroom
I was crying, I was homesick
You had me at 'Hello' dear
It's just the way your life is at the moment
It's just the cards that you've been dealt
It's just the way your life is at the moment
It's just the cards that you've been dealt
