

Mixtape 2003

The Academic

Looking back to a CD
Me and my apologies
We drive out too far
Out to the country

We get lost and we get high
To the mixtape of our whole lives
Will you wake me when we're half there?
With your cigarette and your long hair?

Looking back on those days

You and your mistakes
Me and my mixtapes
Nothing's gonna change the way I feel
Nothing's gonna change the way I feel

I'm trying to right these wrongs
I'm playing you these songs
And nothing's gonna change the way I feel
Nothing's gonna change the way
Change the way I feel

In my car there's a CD
A mixtape of 2003
A better time for both of us
With skinny jeans and roll-ups

We look back at our time shared
Yeah it's all gone and well who cares?
But I do and I tell you
It's a comeback for now

Looking back on those days

You and your mistakes
Me and my mixtapes
Nothing's gonna change the way I feel
Nothing's gonna change the way I feel

I'm trying to right these wrongs
I'm playing you these songs
And nothing's gonna change the way I feel
Nothing's gonna change the way
Change the way I feel

In my car there's a CD
A mixtape of 2003
A better time for both of us
With skinny jeans and roll-ups

Looking back on those days

You and your mistakes
Me and my mixtapes
Nothing's gonna change the way I feel
Nothing's gonna change the way I feel

I 'm trying to right these wrongs
I 'm playing you these songs
And nothing's gonna change the way I feel
Nothing's gonna change the way
Change the way I feel
