Rain

The Academic

I would run away
But I feel myself tied to this place
Lost in a day
All the plans that I said I would make

Every day with you is like a cold summer's morning
Every day with you is like a cold summer's morning

I've been chipping away every day
And I've been finding the right words to say
I've been looking myself up and down
Trying hard not to go into town

I was on the other side
Changing faces overnight
There's no escaping
Clouds are at my door

And the rain keeps falling down
The rain keeps falling down
The rain keeps falling down
The rain keeps falling down
The rain keeps falling down
The rain keeps falling down
