

## Kelly

## The Aces

Met a girl with a smile that I liked  
And her name was Kelly  
Golden hair and her eyes are that kind  
Make you feel like heaven  
Spent the night 'tween her thighs  
Caught a vibe and I got too zealous  
Now she's free like a bird  
And I'm caught in a world of feelings, no

Guess you warned me that night  
That you weren't ready  
But then you take off your clothes, girl  
You do a 180

Oh, Kelly  
What you doing?  
Please stop playing with my heart  
Before you tear it right apart

Oh, Kelly  
Know you're going through it  
But won't you tell me to come over?  
Let you cry right on my shoulder  
Oh, Kelly

Wake up late every day  
Have it made in the shade all summer  
You and me under trees  
With some drinks all over each other  
Grab the car hit the bar  
End the night under stars and covers, oh  
Can't you see what I see?  
You and I could be more than lovers

Guess you warned me that night  
That you weren't ready  
But then you take off your clothes, girl  
You do a 180

Oh, Kelly  
What you doing?  
Please stop playing with my heart  
Before you tear it right apart

Oh, Kelly  
Know you're going through it  
But won't you tell me to come over?  
Let you cry right on my shoulder  
Oh, Kelly

Giving me hell  
You're really putting me through it  
Look back one day  
And say that I dodged a bullet

Giving me hell  
You're really putting me through it

Look back one day  
And say that I dodged a bullet

Oh, Kelly  
What you doing?  
Please stop playing with my heart  
Before you tear it right apart

Oh, Kelly  
Know you're going through it  
But won't you tell me to come over?  
Let you cry right on my shoulder  
Oh, Kelly
