Last One

The Aces

You've kept me sleepless every night, I swear this is the last one (last one
)
Tryin' to brush you off but you keep stumblin' into my songs (into my songs)

(And you know) I've been over this a million times now
Got me screamin' my heart out at night
(And you know) I've put your name into a million lines now
But this is the last one, this is the last one
(I can't) I can't stop, I can't start without you
('Cause you been) Killin' me takin' all my attention
(I don't) I don't need another song about you
So this is the last one, this is the last one
This is the last one, this is the last one, this is the last one
This is the last one, this is the last one, this is the last one
This is the last one, this is the last one, this is the last one
This is the last one, this is the last one, this is the last one

Promised you'd give me everything, I really thought you meant that (thought
you meant that)
So I gave you all I had and never got a damn thing back (damn thing back)

(And you know) I've been over this a million times now
Got me screamin' my heart out at night
(And you know) I've put your name into a million lines now
But this is the last one, this is the last one
(I can't) I can't stop, I can't start without you
('Cause you been) Killin' me takin' all my attention
(I don't) I don't need another song about you
So this is the last one, this is the last one
This is the last one, this is the last one, this is the last one
This is the last one, this is the last one, this is the last one
This is the last one, this is the last one, this is the last one
This is the last one, this is the last one, this is the last one

I've been getting it on, and I'm letting you go
I've been getting it on, and I'm letting you go

I can't, I can't stop, I can't start without you, oh no
I don't, I don't need another song about you, no

(I can't) I can't stop, I can't start without you
('Cause you been) You been killin' me takin' all my attention
(I don't) I don't need another song about you (no songs about you, baby)
So this is the last one, this is the last one
This is the last one
(This is the last one, this is the last one, this is the last one)
Baby, this is the last one
(This is the last one, this is the last one, this is the last one)
No, this is the last one
(This is the last one, this is the last one, this is the last one)
This is the last one
(This is the last one, this is the last one, this is the last one)
