

Not The Same

The Aces

The girl of my dreams
Has faded away
We're in different places, miscommunications
Creating more spaces

Well, I've known her for my whole life I swear
Now I'll just have to get use to things without her there

I'm stuck in a Friday night, and she's stuck in a state of mind
We try, try, try, try
But we're just not the same
I just left her apartment, knowing it was the last time
We try, try, try, try
But we're just not the same

The girl of my dreams
Could kill my ambition
I know that we're better off, and she doesn't wanna talk
So I'm left here wishin'

Well, I've known her for my whole life I swear
Now I'll just have to get use to things without her there

I'm stuck in a Friday night, and she's stuck in a state of mind
We try, try, try, try
But we're just not the same
I just left her apartment, knowing it was the last time
We try, try, try, try
But we're just not the same
But we're just not the same

So what do we do 'cause I don't know how to stop loving you
But we've tried, and we're just not the same
The thought of you with someone else is enough to drive me insane
But we've tried, and we're just not the same

So what do we do 'cause I don't know how to stop loving you, loving you
But we've tried, tried, tried, tried, but we're just not the same
