

The Magic

The Aces

She got that cherry red lipstick and it's smeared on my shirt
Marks me like a cigarette burn
Wants everyone to know that I'm hers

She likes my jet black hair and my hands up her skirt
Says that I've got nothing to learn
I do it perfect 'cause it's what she deserves, baby

'Cause when we walk in the room they stop and stare
Barbie and Ken, they don't compare to us
They know we got it, we got the magic

We look so good, it's so unfair
And everyone wants this thing we share 'cause they know
They know we got it, we got the magic

The way she turns me on with every taste of her lips (The taste of her lips)
Flips me up just like a switch
The only woman that could make me her bitch, oh no

She says she's never had a lover that makes her tick (Lover that makes her tick)
She says that I remind her of Mick
The way I shag her and I'm moving my hips, oh no no

'Cause when we walk in the room they stop and stare
Barbie and Ken, they don't compare to us
They know we got it, we got the magic

We look so good, it's so unfair
And everyone wants this thing we share 'cause they know
They know we got it, we got the magic

She's a work of art
Can't find it in my heart to leave her
I'll go where you are
Feel like I was made to please her
Written in the stars, never pulling us apart 'cause
Babe, the magic is wherever we are

She's a work of art
Can't find it in my heart to leave her
I'll go where you are
Feel like I was made to please her
Written in the stars, never pulling us apart 'cause
Babe, the magic is wherever we are

'Cause when we walk in the room they stop and stare
Barbie and Ken, they don't compare to us (Don't even compare)
They know we got it (They know we got it), we got the magic (We got the magic)

We look so good, it's so unfair (It's so unfair)
And everyone wants this thing we share 'cause they know
They know we got it (They know we got it), we got the magic (We got the magic)
