

You know it's good
You know it's right
There's a star in your sky tonight
You got the moment
You got the game
Everyone's gonna know your name
We hear you coming
Loud and clear
Let them all know your here

Let's get wild
Do you wanna get wild
Come on get wild
So let's get wild

Fire it up
Bring it on
Let's hear your song, come on
Keep it going
Take it far
Rocking out like a rock and roll star
Rocking out like a rock and roll star
Rocking out...

Let's get wild
Do you wanna get wild
Come on get wild
So let's get wild

You know it's good
You know it's right
There's a star in your sky tonight
You got the moment
You got the game
Everyone's gonna know your name
We hear you coming
Loud and clear
Let them all know your here

Let's get wild
Do you wanna get wild
Come on get wild
So let's get wild

Do you wanna get wild
Come on get wild
So let's get wild
